Values

- Develop student thinking and problem solving
- Integrate real world issues with theories in STEM
- Respond to employer needs and expectations
- Use educational research and student assessment to inform innovations in education

Mission Statement

To promote high-quality undergraduate education in science, technology, engineering and mathematics through peer reviewed articles that provide

- Case studies and other innovations in education
  - Well founded in STEM content
  - Informed by educational research
  - Tested through assessment of impact on student learning
- Results from educational research that informs teaching and learning in STEM
- Recent developments that impact STEM education in such areas as policy and industry needs
